THE MAN CAUGHT; GOODS ARE FOUND

John Mitchell, Alias Joe Cooper, Arrested for House-Breaking.

OTHER CHARGES MAY FOLLOW

Negro Thought to Have Been Connected With the Recent Robberies—Much Plunder.

A negro giving his name as John Mitchell, but known as Joe Cooper, who said he came from Pennsylvania, but is thought to be from North Carolina, and who is known as an all-around dangerous character, was arrested yesterday morning at 10 o'clock by Detectives Bergantini and Captain Tomlinson, on the charge of breaking into the home of Mr. Aleck Foster, at No. 4124 North Fourteenth Street, Thursday night, and stealing a considerable amount of clothing and personal property belonging to Mr. Foster and Mr. L. Clemmons.

The negro is said by the detectives to be the man who has been boldly robbing so many houses of late, both in the day and night time. He is alleged to have entered and stolen from three houses on Marshall Street during the last few days. One place is at No. 908 Marshall; one is at the corner of Seventh Street, and another further west on the thoroughfare. Besides these there are several other bold robberies attributed to him in different parts of the city.

The detectives have been on the man's trail for several days. He was caught at a house he rents on Libby Hill, near the mouth of the railroad tunnel. Night before last, he was arrested by going through this tunnel.

House Full of Plunder.
The negro's house had more the appearance of being the storing place of a cheap commercial pirate than a dwelling. He had several chests fairly loaded down with booty of all kinds and descriptions, from shoestrings to jewels.

Mitchell has been working at Allen and Ginter's tobacco factory, and all sorts of things were recovered which belonged to that plant. "He had things which were of no earthly value. The negro appears to be unable to keep from robbing. In all of this idiosyncrasy, Mitchell is considered to be a clever and bold crook, ready to take any job. It is said that not half his booty is recovered yet, and when it is there will be some more robberies accounted for. At the time of the negro's arrest, there was found on him a bunch of keys of all sizes and descriptions, of sufficient variety to open almost any ordinary door.

The man is tall and powerful, standing about six feet three inches. He is held at the First Police Station.

At the Casino.
The show at the Casino this week, which has been playing to large audiences, will close with the "matinee and night" performances to-day.

This comedy has afforded much amusement for the patrons of the cozy summer theatre.

Set of Sixteen Beautiful Souvenir Post Card Coupons Commence To-Morrow.

Beginning to-morrow morning The Times-Dispatch will publish a souvenir postcard coupon on the second page. Be sure and cut it out and do the same every day for the next eight days and then send your coupon to the main office of The Times-Dispatch and receive the series of beautiful postcards. If it is not convenient for the coupons to be brought to The Times-Dispatch office, they can be exchanged at any one of the branch offices given in the list published daily. You cannot buy a set of postcards anywhere as they have been specially prepared for The Times-Dispatch; they can only be secured in this way.

The reason for this is that people's tastes vary. The Times-Dispatch's taste may not be the best, but it usually tries to satisfy the demands made by the majority. Therefore, instead of running the risk of having a bigger demand for one card than another, the series has been made up with the idea of satisfying the taste of the majority of subscribers.

Following is the list of subjects selected:

"Having a seal, a clerk, and jurisdiction in actions at law or equity, or law and equity, in which the amount in controversy is unlimited" may naturalize aliens on and after September 27, 1906, will be supplied with necessary blank forms and records, the supply being based upon statements by such clerks as to the amount of naturalization business transacted by their courts, respectively, during the year prior to such application.

Clerks of such courts, when furnished with such forms, will also be furnished with blank forms of regulation upon which all subsequent applications for supplies will be made.

Clerks of such courts should also, in making original applications, state the number of aliens who have made declaration of intention to become citizens, and will be entitled during the first year to become naturalized, so that it may be known whether they will require, during such year, certificates of naturalization.

Under an act entitled "An act to validate certain certificates of naturalization," also approved June 28, 1906, such certificates of naturalization as have been issued since March 8, 1903, without containing the statement required by the immigration act of said date in regard to anathematism, may be substituted for such certificates under the naturalization act of June 28, 1906, upon application therefor in accordance with the provisions of said act. The clerks of courts which have issued such defective certificates should therefore notify the Bureau of Immigration and Naturalization of the number of such certificates outstanding.
